VG2435Sm

24” 16:10 Ergonomic Multimedia Display

Overview

ViewSonic’s VG2435Sm high-performance multimedia display features 1920 x 1200 resolution with 16:10 aspect ratio that provides a larger screen surface for increased office place productivity. With SuperClear® wide-angle viewing technology, 50M:1 dynamic contrast ratio and dual 2W stereo speakers, it delivers sharp, consistent and true color performance together with crystal-clear sound effects. Fully ergonomic with -5° to 37° tilt, 360° swivel, 90° pivot and 100mm height adjustments, creating a more comfortable working environment is easy. In addition, it comes equipped with our Flicker-free and Blue Light Filter technologies that reduce eye discomfort for daily users. Plus, the VG2435Sm is ENERGY STAR® certified and cuts down on power consumption at all brightness levels with its integrated Eco-mode. Our ViewMode technology also provides viewer-adjustable text, web and movie settings, making it the perfect choice for corporate, government, SMB and educational institutions.

See More, Work More with a 16:10 Aspect Ratio Display

With an enlarged 16:10 aspect ratio and 1920x1200 resolution, this display enhances productivity by providing additional vertical screen space for viewing office docs, graphic design work, web browsing, and online media.

Ergonomic Design for Comfort and Productivity

With advanced ergonomic features, ViewSonic displays are designed to provide a greater range of adjustment for increased productivity and comfort. Users can reduce eyestrain and physical fatigue by adjusting the monitor via 360-degree swivel, 90-degree pivot, -5 to 37-degree tilt, and 100mm height adjust options.

50M:1 MEGA Dynamic Contrast Ratio

Dynamic contrast ratio detects the brightness of an image, and automatically adjusts the backlight to maximize the monitor's color range and contrast. Dynamic contrast ratio technology enables the accurate reproduction of images, producing vibrant and rich visual effects.

ViewSonic Flicker-Free Viewing for Improved Eye Comfort

ViewSonic flicker-free displays completely eliminate flickers and deliver on the promise of more comfortable viewing. This lets you work at your computer, play games, or watch movies longer – without eye fatigue.

Blue Light Filter for More Comfortable Viewing

Prolonged exposure to certain levels of blue light can cause eye discomfort. ViewSonic displays feature a Blue Light Filter setting that allows users to adjust the amount of blue light emitted from the screen, maintain a good colour balance and reduce eye

ViewMode Settings for Digital Content

Enjoy excellent performance and accurate colour rendering for everything you view on this display. With 5 different scenario presets, ViewSonic displays offer best-in-class calibration techniques to bring you the best digital viewing experience for Gaming,

discomfort for work and multimedia applications.

Movie, Web browsing, Reading, and Grey scale applications.

Dual Integrated Stereo Speakers

2 WATT × 2

The ViewSonic VG2435Sm has two integrated 2W stereo speakers for enhanced multimedia performance with crystal-clear stereo sound.

Planet-Friendly Mercury-Free LED Backlighting

LED backlighting enhances display performance, delivers an outstanding color range, and adjusts contrast ratios for remarkably detailed images. ViewSonic's eco-friendly, mercury-free LED backlighting further conserves up to 25%* more energy when compared to conventional displays. In addition, LED backlighting provides for a slim, lightweight profile that saves desktop space.

Eco-Mode Conserves More Energy

ViewSonic's proprietary Eco-mode feature is built into all LED displays, offering options to select "Optimize(75%)" or "Conserve (50%)" settings that

VESA-Mountable

The ViewSonic VG2435Sm features a 100 x 100mm VESA-mountable design that allows you to mount the display on a monitor stand or on a wall,

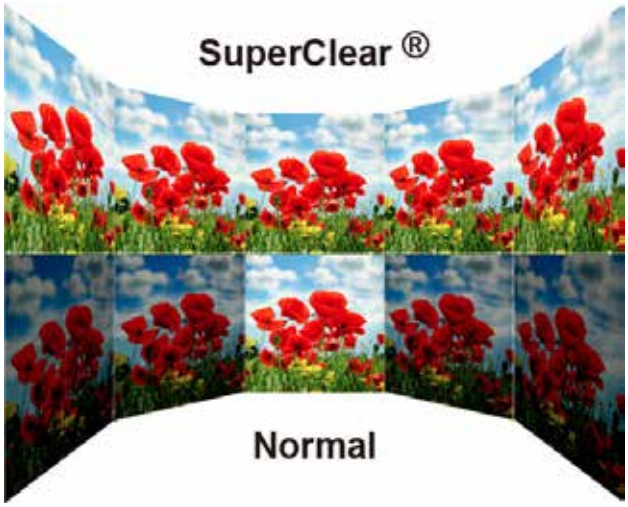
save up to 25% power. Especially in low ambient light, Eco-mode adjusts brightness and improves visibility, while reducing eye fatigue and prolonging the display's lamp life. With Eco-mode, both lamp replacement and energy expenditures are reduced.

SuperClear® Image Enhancement Technology with Wide Viewing Angles

SuperClear® Image Enhancement Technology delivers the best colour performance and extends display viewing angles to 178 degrees both horizontally and vertically. Experience accurate and vivid colours with consistent levels of brightness whether looking at the screen from above, below, the front, or the side—with no colour distortion or decay.



depending on your specific needs. You can easily unscrew the base, and then mount the display on its new stand or wall mount.
